

Ray Cubes

The instructions below assume that you know basic things like mountain fold and valley fold. If not then please refer to [Fascinating Folds](#).

1. Mountain and valley fold as shown into thirds
 
2. Valley fold
 
3. Pinch half way between cd
 
4. Valley fold to align edge eb with ef
 
5. Valley fold as shown and tuck back over bottom layer
 
6. Mountain fold and open. Also open fold made in step 2.
 
7. Finished unit. Make 24 units
